(a) Collective overlap
$\langle Q(t) \rangle$
$t$ (sweeps)
(b) Plateau zoom
$\langle Q(t) \rangle$
$t$ (sweeps)
(c) Relaxation time
Arrhenius fit
$\tau_\alpha$ (sweeps)
$1/\beta$
(d) Relaxation spectrum
$\chi''(\omega)$
$\omega$
$\beta = 0.01$
$\beta = 0.294286$
$\beta = 0.578571$
$\beta = 0.862857$
$\beta = 1.14714$
$\beta = 1.43143$
$\beta = 1.71571$
$\beta = 2$
